INTRODUCTION

The *LOUISIANA LIBRARY ASSOCIATION MANUAL* represents an attempt to codify the duties, practices and relationships involved in carrying on the work of the Association. Its primary purpose is to clarify the responsibilities of the various officers and committees and thus, to promote greater efficiency, coordination and continuity in the conduct of activities of the Association.

If the *MANUAL* is to serve as a reliable guide to current practice, there must be continuous revision. All users of the *MANUAL* should assume responsibility for calling attention to changes which, in the light of their judgment and experience and the actions of the association, need to be incorporated. Suggestions should be referred to the Executive Director of LLA.

This edition represents revisions and updates through June 2015. Pages later revised and approved by the LLA Executive Board shall be dated as such at the end of each section.

- To encourage, advance, and support high quality library collections, facilities, and services that are fully adequate to support instruction, research, self-education, and pleasure-reading in order that the residents of Louisiana may be well-informed and able to achieve full self-development;
- Through conferences, lectures, newsletters, workshops and the like, to encourage and support librarians and other members of the profession in their efforts to maintain and advance their knowledge of and skills in the field of library and information science, as that field continues to develop;

- In a democratic society, all libraries must function, freely and fully, as unbiased, nonpartisan sources of information, so as to ensure the unrestricted flow of information and ideas to present and future generations;
- In a democratic society, all individuals have the right to read and explore ideas freely and privately, forming their own opinions about resources they choose to read, view, listen to or otherwise access, without censorship or surveillance;
- In a democratic society, each library must offer equal and unfettered access to all users, without discrimination in regard to age, ancestry, color, disability, ethnic background or identity, marital status, national origin, pregnancy, race, religion, sex, sexual orientation, gender identification, or any other characteristic(s) of an individual that do not in fact present a direct, immediate, and rational threat of physical or psychological harm to other individuals; and,
- As a member of a democratic society, the Association advocates and endorses morally responsible intellectual freedom and freedom of access to information; *
- In sum, as a member of a democratic society, the Louisiana Library Association embraces as fundamental values and supports freedom-of-information, freedom-from-discrimination, freedom-from-intolerance, freedom from abuse (physical and mental), respect-for diversity (of individuals and ideas), and each individual's right-of-privacy.

* Morally responsible intellectual freedom and freedom of access to information are **not** a license to undermine democracy or to commit any act that in fact either presents a direct, immediate, and rational threat of physical or psychological harm to other individuals or in fact logically causes direct, immediate physical or psychological harm to other individuals (though the Association does expect that, if it becomes necessary for reasons of public safety for records of library use to be investigated, legal safeguards are in fact reasonably employed to protect the rights of individual library users and of library staff members).

LEGISLATIVE POLICY STATEMENT

PREFACE

This document contains legislative policy of the Louisiana Library Association, as adopted by its membership. The purpose of the LLA Legislative Policy Statement is to provide the Association and those working on behalf of the Association with a broad framework on legislative policy which can be utilized as a basis for action; to provide guidance for formulating the Association's position on issues not covered by the adopted policy when legislative crisis situations develop; to serve as a guide to units within the Louisiana Library Association which may take initiative in legislative actions within their areas of responsibility which are not contrary to the membership-adopted policy. The Legislation Committee will periodically review this document and suggest revisions to the membership for adoption.

The Louisiana Library Association's policy on state legislation is based on its objectives of promoting the development and improvement of libraries, library service, and librarianship in the State of Louisiana and represents the thinking of those who use libraries as well as those who operate them. The policy position of the Louisiana Library Association concerning legislation shall reflect the goals and aims of the sections and committees of the Association.

LEGISLATIVE POLICY

I. DIRECT SUPPORT OF LIBRARY SERVICES

- A. State Library of Louisiana. Through its leadership and supportive services, the State Library of Louisiana has spearheaded the development of public library services in the state. It is responsible for statewide library planning which provides for state support, for the effective administration and use of federal funds, and for coordinated library development. It undergirds and backstops the resources and services of other libraries in the state and provides for service to state government, institutions, and special groups.

The Association supports legislation which continues to encourage and support financially the library's leadership and service responsibilities.

- B. LOUISiana Library Network. LOUIS is a project of the Louisiana Academic Library Information Network (LALINC), a dynamic consortium of public and private college and university libraries established in 1992 and funded by LALINC members and the Louisiana Board of Regents. LOUIS combines the collective resources of all members to provide member-approved initiatives, which include information technology solutions such as an integrated library system, a digital library system, an interlibrary loan system, electronic scholarly resources, remote access to resources any time, any place, as well as a host of other services. The Association supports legislation and administrative action which continues to encourage and support financially LOUIS' leadership and service responsibilities.
- C. Textbook/Media/Library Advisory Council for the Louisiana Board of Elementary and Secondary Education. The Textbook/Media/Library Advisory Council assists the Louisiana Board of Elementary and Secondary Education (BESE) in carrying out its duties and responsibilities concerning libraries and media centers in Louisiana's public schools. The Association supports legislation and administrative action which continues to encourage and support financially viable, effective library and media centers in the state's public schools.
- D. Interlibrary Cooperation and Systems. Because no library can be or should be self-sufficient, a better utilization of existing resources must be achieved.

The Association supports the cooperative and coordinated use of all resources in the state's academic, public, school, and special libraries through the development and funding of library systems and interlibrary loan agreements, both formal and informal. The ultimate goal is a framework of cooperation which makes all resources accessible to all of the state's citizens through their local libraries.

- E. Telecommunications. The Association recognizes that telecommunication is important, both because it can greatly increase citizen access to library resources and services and because it can enhance effective communication among libraries and other components of information networks. The Association supports legislation which will broaden the availability of communication devices for educational and informational purposes. The Association supports the concept of maximum public, educational, and governmental access to cable production facilities and channel space. The Association will oppose legislation or regulations which restrict access to and use of telecommunications for educational and informational purposes.
- F. Public Libraries. The public library cuts across the boundaries set by school, college/university, or special libraries to serve citizens of all ages in every community. Citizens in all 64 parishes now have access to locally-supported public libraries. However, the growing needs of a changing population have placed increased demands on the services and materials of the public library; local support is no longer enough. Direct state assistance is needed to strengthen basic library resources, both material and staff; to develop strong library systems; and to provide for adequate library facilities. State funding is needed to stimulate and assist public libraries in developing new programs and services which will help in meeting critical social and educational needs. The Association also supports the inclusion of the public library in state legislation designed to create or strengthen community services and programs of a social and educational nature, including the expansion of the library's role as a community information center designed to serve the special information needs of all members of the community.
- G. Academic Libraries. Academic libraries are an essential part of advanced learning. While each library's primary concern is with its parent institution, academic libraries recognize their broader responsibility as part of the total library community. In order to continue to meet these needs and to support new and changing programs of instruction and research in Louisiana's colleges and universities, library resources and services must be strengthened and expanded. The Association supports increased funding of university, college, and junior college libraries as a part of funding of higher education. Any state legislation which stimulates new or expanded educational programs should provide sufficient additional funds to meet the library material and personnel needs for the success of these programs.
- H. School Library Media Centers. The school library media center is an integral part of the school and supports and enriches every aspect of the curriculum. Effective teaching and learning rely on well-stocked library media centers, staffed by library media specialists. The Association supports increased state funds to provide centralized school media centers, media center librarians and support personnel, and adequate collections of library books, audio-visual materials and equipment which will stimulate and strengthen school library services required in programs of quality education. The Association supports the revision of the state equalization formula to provide for the employment of school media center librarians in the elementary schools as part of the state's minimum education program.
- I. Special Libraries. Special libraries serve the specialized informational needs of industry, business, research, educational and technical institutions,

government, special departments of public and university libraries, newspapers, museums, and many organizations, both public and private. Special libraries serve a vital function in systems for cooperative use of library resources and interlibrary loan agreements, by providing specialized material not otherwise available.

The Association supports the inclusion of special libraries in the development of cooperative agreements.

- J. Library Services to the Disadvantaged. The Association supports the provision of library services to the urban and rural disadvantaged which will stimulate an interest in reading, increase literacy, support self-esteem, promote pride in heritage, and develop a concern for the community.
- K. Library Services to the Blind and Handicapped. The Association supports programs which strengthen and expand library services to meet the special needs and interests of the blind and physically handicapped.
- L. Service to Health and Correctional Institutions. The Association supports the provision of library services which will meet the special needs and interests of patrons in health and correctional institutions, either with libraries developed within the institutions or by providing selection and reference services and transporting materials to the patrons on a regular basis.
- M. Access to State Documents. The Association supports the concept of inclusion in the public domain of all materials produced at public expense. It supports freedom of access to all forms of state publications, including microforms, audio-visual material, etc. paid for in full or in part by state funds as one of the rights of citizenship and necessary for the intelligent exercise thereof.
The Association supports the orderly and efficient distribution of state publications through the depository library program in order that state information may be freely available and readily accessible to the public, and the revision of the depository law as required to meet the needs of the public in an economical, efficient and useful way now and in the future.

Service from Other State Agencies

- 1. Louisiana Department of Education. The Louisiana State Department of Education is a primary agency in promoting educational excellence. The Association supports a fully developed and coordinated program of library service within the State Department of Education and its continued leadership in planning and implementing school library activities within the state.
- 2. Legislative Reference Services. The Association endorses continued financial support to the Louisiana Legislative Council and the State Library of Louisiana to provide books, information and reference service to members of the legislature, other officers of state government, and their staffs.
- 3. State Archives. The Association supports the archival functions of the state administered by the State Archives and Records Service to provide centralized control of archival documents. The Association supports state legislation and financial support necessary to assure adequate housing, equipment, and qualified professional personnel to provide continuing centralized control and service in archival and records management.

II. INDIRECT SUPPORT OF LIBRARY SERVICES

- A. Library Education. The advancement of the library profession depends upon academically qualified men and women who will assume leadership. The Association supports continued and additional funding of the School of Library and Information Science of Louisiana State University and undergraduate curricula in library science offered in state colleges and universities.

Continued upgrading of staff is needed in all types of libraries. The Association supports legislation which provides for the continuing education of librarians and library personnel.

- B. Personnel Policies and Employment Standards. In order for the library to function fully as an unbiased, nonpartisan source of information, the Association supports selection and promotion of library personnel based on qualifications and competency, without discrimination in regard to race, color, age, sex, religion, or national origin.
- C. Taxation. The Association believes that it is in the public interest that libraries, as educational institutions, and the distribution of educational, cultural and scientific materials used by libraries not be unjustly burdened by taxation. Libraries and library materials are already frequently given special treatment and exemptions in the tax laws of federal, state, and local governments.

The Association favors revenue acts with interpretive regulations which will encourage gifts of personal and business papers to libraries, thus providing valuable primary source material for research in many areas.

- D. Library Construction. The Association recognizes the needs and supports the efforts for improving and enlarging library facilities throughout the state as necessary to provide service to the greatest possible number of citizens.
- E. Surplus Property. The Association supports the policy of permitting libraries, like other educational institutions, to receive both real and personal surplus property.

III. INTELLECTUAL FREEDOM

The Association holds intellectual freedom to be indispensable to the preservation of those individual liberties and democratic institutions guaranteed by the Constitution of the United States. It supports legislation which enhances the ability of libraries to carry out the Library Bill of Rights as defined and adopted by the American Library Association and opposes legislation designed to restrict free access to information concomitant with these positions.

In a democratic society, it is essential that citizens be able to read and explore ideas freely, without fear of surveillance. When it is necessary to investigate records of library use for reasons of public safety, then reasonable legal safeguards should be employed to protect the rights of the individual library user and library staff members. The Association opposes any state legislation which would erode protection of privacy of records of library users and supports any legislation which safeguards this privacy.

IV. INTERSTATE PROGRAMS

The Association supports participation of Louisiana libraries in national and regional programs, including but not limited to, interlibrary loan of materials, interstate networks, union catalogs and bibliographies, workshops and institutes. The Association supports continued cooperation with and participation in the American Library Association, on the part of the state association and/or individual members.

STATEMENT OF PROFESSIONAL ETHICS, 1981

Introduction

Since 1939, the American Library Association has recognized the importance of codifying and making known to the public and the profession the principles which guide librarians in action. This latest revision of the CODE OF ETHICS reflects changes in the nature of the profession and in its social and institutional environment. It should be revised and augmented as necessary.

Librarians significantly influence or control the selection, organization, preservation and dissemination of information. In a political system grounded in an informed citizenry, librarians are members of a profession explicitly committed to intellectual freedom and the freedom of access to information. We have a special obligation to ensure the free flow of information and ideas to present and future generations.

Librarians are dependent upon one another for the bibliographical resources which enable us to provide information services and have obligations for maintaining the highest level of personal integrity and competence.

The membership of the Louisiana Library Association adopted this CODE OF ETHICS at the annual business meeting, March 26, 1982, in Lake Charles, Louisiana.

Code of Ethics

- I. Librarians must provide the highest level of service through appropriate and usefully organized collections, fair and equitable circulation and service policies, and skillful, accurate, unbiased and courteous responses to all requests for assistance.
- II. Librarians must resist all efforts by groups or individuals to censor library materials.
- III. Librarians must protect each user's right to privacy with respect to information sought or received and materials consulted, borrowed or acquired.
- IV. Librarians must adhere to the principles of due process and equality of opportunity in peer relationships and personnel actions.
- V. Librarians must distinguish clearly in their actions and statements between their personal philosophies and attitudes and those of an institution or professional body.
- VI. Librarians must avoid situations in which personal interests might be served or financial benefits be gained at the expense of library users, colleagues, or the employing institution.

AMERICAN LIBRARY ASSOCIATION

INTRODUCTORY NOTE

During the period of 1963 to July 6, 1965, the Louisiana Library Association did not have chapter status in the American Library Association. The Executive Board of LLA resigned in 1963 as a chapter of ALA because LLA was unable, at that time, to comply with the "Statement on Chapter Status" adopted by the American Library Association at the Annual Conference held at Miami Beach, Florida, June, 1962. (See: "Statement on Individual Membership, Chapter Status and Institutional Membership," *ALA Bulletin*, 56:637, July-August, 1962.)

The application of LLA for reinstatement as a chapter of ALA was approved by the ALA Council on July 6, 1965. An interim Councilor was seated at the Council meeting on July 6, 1965.

March, 1973

LLA REPRESENTATIVE TO ALA

One Chapter Councilor is to be elected by the members of LLA to serve for a term of three conference years of the American Library Association. An annual allowance is allocated to assist the Councilor with expenses involved in attending the meetings of the ALA Council at the annual conference and the mid-winter meetings of ALA. The Councilor is reimbursed for round-trip airfare, food and lodging, and conference registration, depending on availability of funding and using the state formula. The Councilor shall transmit all proposed amendments and changes to the LLA Constitution and Bylaws for review of compatibility with the ALA Constitution and Bylaws. The Councilor shall submit reports on ALA activities to the LLA Executive Board and membership as requested by the LLA President. Standing committees, interest groups, and sections are required to send all original records to the office yearly, retaining copies of those items for their use as needed. Copies should be marked as such, and should they at some point be sent to the office with originals, the archivist(s) should remove them. Archivist(s) should also compare groups of committee and interest group records under review with the record of what was transmitted to LSU and remove duplicate materials.

Archivists (or, in some cases, the Executive Director) should complete transmittal forms for each group of records sent to LSU. Louisiana Library Association

CONFLICT OF INTEREST POLICY

This conflict of interest policy is designed to help directors and officers of the Louisiana Library Association identify situations that present potential conflicts of interest and to provide the Louisiana Library Association (“LLA”) with a procedure which, if observed, will allow a transaction to be treated as valid and binding even though a director or officer has or may have a conflict of interest with respect to the transaction.

1. Definitions

- 1.1 Interested Person. Any director or officer who has a direct or indirect financial interest, as defined below, is an interested person.
- 1.2 Financial Interest. A person has a financial interest if the person has, directly or indirectly, through business, investment or family:
 - a. An ownership interest in any entity with which the LLA has a transaction or arrangement;
 - b. A compensation arrangement with the LLA or with any entity or individual with which the LLA is negotiating a transaction or arrangement; or
 - c. A potential ownership or investment interest in, or compensation arrangement with, any entity or individual with which the LLA is negotiating a transaction or arrangement.

Compensation includes direct and indirect remuneration as well as gifts or favors that are not insubstantial.

A financial interest is not necessarily a conflict of interest. Under Section 2.2, a person who has a financial interest may have a conflict of interest only if the Board decides that a conflict of interest exists.

2. Procedures

- 2.1 Duty to Disclose. In connection with any actual or possible conflict of interest, an interested person must disclose the existence of the financial interest and all material facts related thereto to the Board or committee of the Board considering a proposed transaction or arrangement.
- 2.2 Determining Whether a Conflict of Interest Exists. After disclosure of the financial interest and all material facts, and after any discussion with the interested person, he/she shall leave the Board or committee meeting while the determination of a conflict of interest is discussed and voted upon. The remaining Board or committee members shall decide if a conflict of interest exists.
- 2.3 Procedures for Addressing the Conflict of Interest.
 - a. If the Board determines that a conflict of interest exists, the interested person may make a presentation at the Board or committee meeting, but after the presentation, he/she shall leave the meeting during the discussion of, and the vote on, the transaction or arrangement involving the conflict of interest.

- b. The President or chairperson of the committee shall, if appropriate, appoint a disinterested person or committee to investigate alternatives to the proposed transaction or arrangement.
- c. After exercising due diligence, the Board or committee shall determine whether the LLA can obtain with reasonable efforts a more advantageous transaction or arrangement from a person or entity that would not give rise to a conflict of interest.
- d. If a more advantageous transaction or arrangement is not reasonably possible under circumstances not producing a conflict of interest, the Board or committee may proceed with the proposed transaction or arrangement only if it determines, by a majority vote of the disinterested directors, that the proposed transaction or arrangement is in the LLA's best interest, for its own benefit, and is fair and reasonable.

2.4 Violations of the Conflicts of Interest Policy

- a. If the Board or committee has reasonable cause to believe a director or officer has failed to disclose actual or possible conflicts of interest, it shall inform the person of the basis for such belief and afford the director or officer an opportunity to explain the alleged failure to disclose.
- b. If, after hearing the director or officer's response and after making further investigation as warranted by the circumstances, the Board or committee determines the director or officer has failed to disclose an actual or possible conflict of interest, it shall take appropriate disciplinary and corrective action.

3. Records of Proceedings

The minutes of the Board and all committees with Board-delegated powers shall contain:

- a. The names of the persons who disclosed or otherwise were found to have a financial interest in connection with an actual or possible conflict of interest, the nature of the financial interest, any action taken to determine whether a conflict of interest was present, and the Board's or committee's decision as to whether a conflict of interest in fact existed.
- b. The names of the persons who were present for discussions and votes relating to the transaction or arrangement, the content of the discussion, including any alternatives to the proposed transaction or arrangement, and a record of any votes taken in connection with the proceedings.

4. Compensation

- a. A voting member of the Board who receives compensation, directly or indirectly, from the LLA for services is precluded from voting on matters pertaining to that member's compensation.
- b. A voting member of any committee whose jurisdiction includes compensation matters and who receives compensation, directly or indirectly, from the LLA for services is precluded from voting on matters pertaining to that member's compensation.
- c. No voting member of the Board or any committee whose jurisdiction includes compensation matters and who receives compensation, directly or indirectly, from the LLA, either individually or collectively, is prohibited from providing information to any committee regarding compensation.

5. Annual Statements

Each director, principal officer and member of a committee with Board delegated powers shall:

- (1) annually sign a statement which affirms such person:
 - a. Has received a copy of the conflicts of interest policy,
 - b. Has read and understands the policy,
 - c. Has agreed to comply with the policy, and
 - d. Understands the LLA is an entity described in Section 501(c)(6) of the Internal Revenue Code of 1986, as amended, and in order to maintain its federal tax exemption it must engage primarily in activities which accomplish one or more of its tax-exempt purposes;
- and
- (2) annually disclose information concerning possible conflicts of interest.

WHISTLEBLOWER POLICY

I. General

The Louisiana Library Association expects its directors, officers, assigned staff, and other representatives to observe high standards of business and personal ethics in the conduct of their duties and responsibilities. As representatives of the LLA, we are obligated to practice honesty and integrity in fulfilling our responsibilities and comply with all applicable laws and regulations.

II. Reporting Responsibility

It is the responsibility of all LLA directors, officers, and assigned staff to report “Wrongful Conduct” in accordance with this Whistleblower Policy.

III. Wrongful Conduct

“Wrongful Conduct” is defined in this Whistleblower Policy to include: a serious violation of the LLA policy; a violation of applicable state and federal law; or the use of LLA property, resources, or authority for personal gain or other non-organization-related purpose except as provided under the LLA policy. This definition of Wrongful Conduct is not intended to be an exclusive listing of the illegal or improper activity encompassed by the Whistleblower Policy. Rather, the Whistleblower Policy is intended to serve as a means of reporting all serious improprieties that potentially impact the integrity and effective operation of the association.

IV. No Retaliation

No LLA director, officer, or assigned staff member who in good faith reports Wrongful Conduct will suffer harassment, retaliation, or adverse employment consequence. Any LLA director, officer, or assigned staff member who retaliates against anyone who has reported Wrongful Conduct in good faith is subject to discipline up to and including discontinuance of assignment or removal from the Board of Directors, as applicable. V. Reporting Wrongful Conduct

The LLA encourages its directors, officers, and assigned staff to share their questions, concerns, suggestions, or complaints with someone who can address them properly. Any director, officer or staff member may report Wrongful Conduct to the Executive Director or the President of the Board of Directors. If the Wrongful Conduct implicates one or both of the Executive Director or the President of the Board of Directors, or if the reporting individual is not comfortable speaking with or not satisfied with response of the foregoing individuals, the issue may be reported to any member of the Board of Directors.
